HYDRAULIC ROAD BLOCKER

Surface mounted Hydraulic Road Blockers are designed specially for Entrance & Exit points. Hydraulic Road Blockers provides high anti-terror driveway protection level. Wide range of configurations enhance it's security levels according to projects & requirements.

Specifications:

- Lenth- 12f - Customize as per requirments
- Width- 2.5f
- Top Head Sheet- 12mm Checkered
- Front Sheet- 5mm
- Side Sheet- 12guage
- Internal Structure- 3inch, 6mm u channel & 3inch 6mm angle
- External Structure- 18guage sheet
- Paint- Red oxide & black berger paint with 3M reflector tape
- Hydraulic jack (Made in Italy)
- Hydraulic flexible pipe
- Hydraulic oil tank
- Hydraulic double action valve (Made in Japan)
- Hydraulic pump (Made in Italy)
- 3 phase motor (Siemen's Germany)
- Soundproof & Waterproof Cabinet Unit
- Multiple relays and magnet connectors
- Limit switch / Digital timer
- Up / Down switch button
- Traffic light Green & Red

Ideal For:

Government insitutions, Commercial areas, Airport premises, Business centers, Industrial areas, Hotels, Financial institutes, Educational institutes, Sports complex,

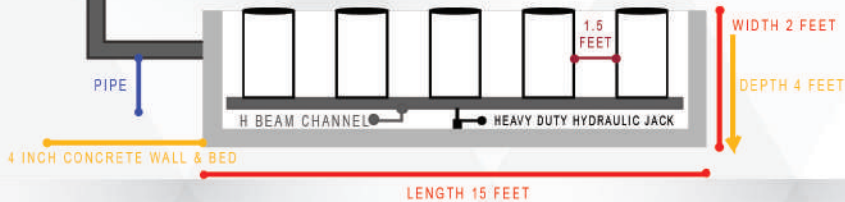

HYDRAULIC BOLLARDS

Hydraulic bollards provides high level of security guaranteed access to pedestraint, Blocking the vehicles only. Enhance the entrances with their chrome finish.

Specifications:

- 8mm thickness of bollard with 10 inch dia
- Bollard rising height 2 to 3 feet adjustable
- 2mm thickness, 3inch angle and C channel structure
- 10mm top checked sheet
- Edge beam with tyflone rolling guide
- Anti rust Chrome Finish
- Hydraulic sound proof jack
- 3 phase 3Hp Siemens motor (Made In Germany)
- Operational speed 3 to 4 second (Up & Down)
- Manual release in case of electricity failure

Ideal For:

Shopping Malls, Commercial areas, Airport premises, Business centers, Industrial areas, Hotels, Financial institutes, Educational institutes, Spa & Fitness centers,

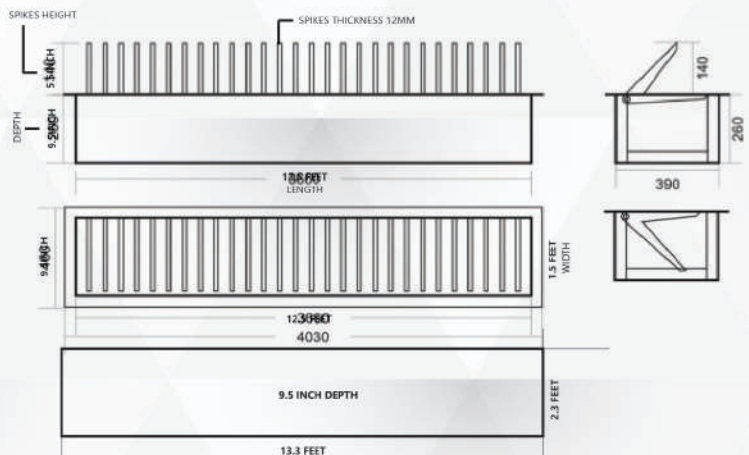

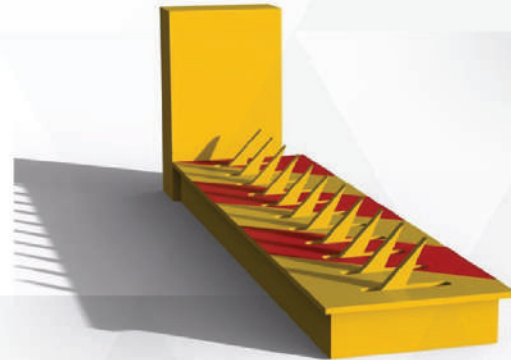

TIRE KILLER

Tyre Killers are extremely heavy duty, built entirely of steel with components from steel plate. The product provides high security for sensitive areas against forced and unauthorized entry or exit of motor vehicles whereby tyres are destroyed when forced entry or escape is attempted.

Specifications:

- Solid killer spikes in 60o killing position.
- Killer height 100 mm.
- Shadow installation depth (250 mm).
- Carry load up to 50 Ton.
- Max. Passing velocity 30km/hr
- Anti corrosive.
- 3inch 2mm C Channel,
- 2Inch 6mm Angle,
- Spikes Thickness 12mm,
- In case Of Any Emergency, You Can Use Lever And All The Spikes Is Going To Be Down Automatically

Ideal For:

Government insitutions, Commercial areas, Airport premises, Business centers, Industrial areas, Hotels, Financial institutes, Educational institutes, Sports complex, Parkings

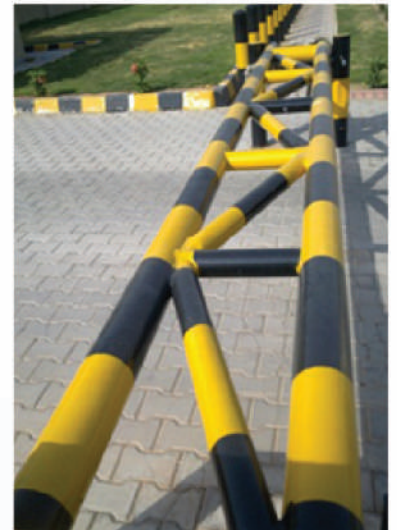

MANUAL DELTA BARRIER

Manual delta barrier is used at government facilities, embassies and automotive sales facilities. Clear opening ranges from 10.5 to 24 feet (3,200 mm to 7,315 mm) are available to allow.

Specifications:

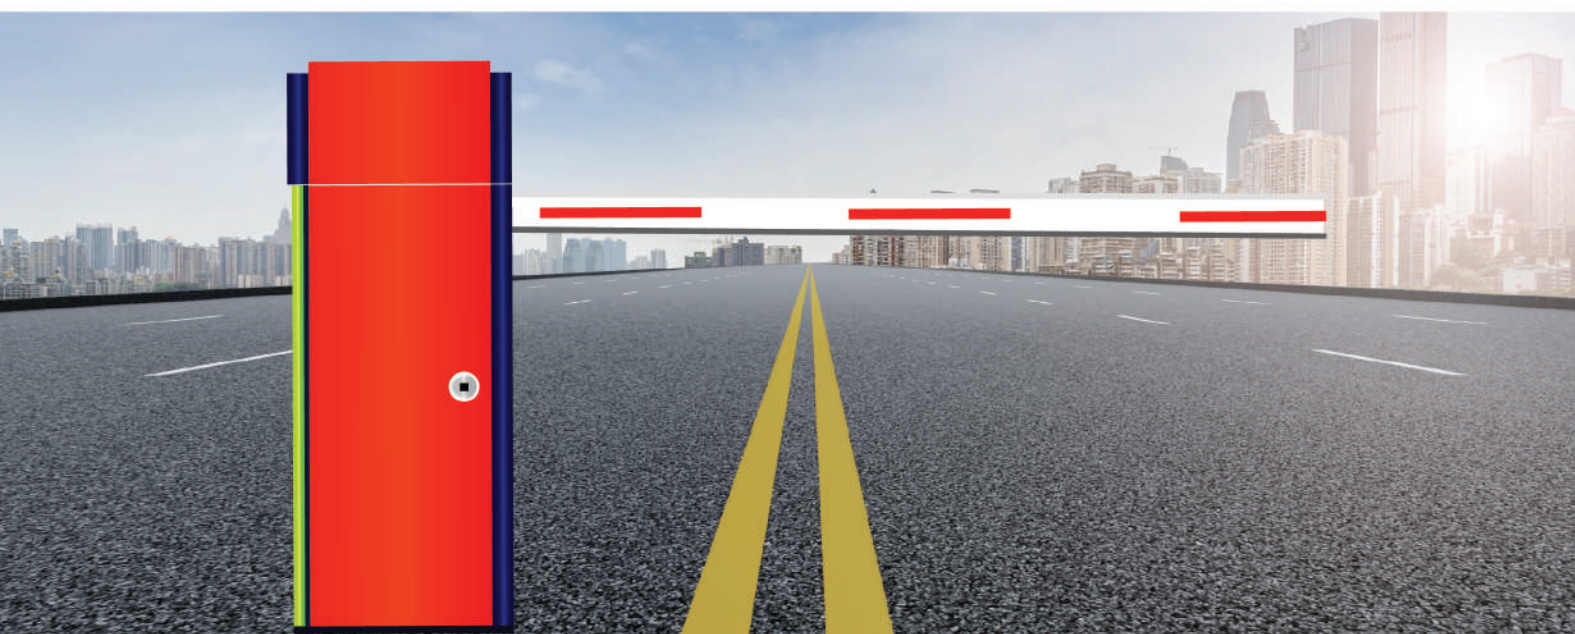

- Gross vehicle weight 15,000 lbs. (6,800 kg)
- Crash speed 30 mph
- Standard opening 3,200 ~ 7,315 mm
- Barrier Base Foundation Asphalt Emulsion
- Dimension 864 x 1800
- Anti rust Fine Finish
- Smooth Operation

Ideal For:

Shopping Malls, Commercial areas, Airport premises, Business centers, Industrial areas, Hotels, Financial institutes, Educational institutes, Spa & Fitness centers,

E-TAG PARKING BARRIER

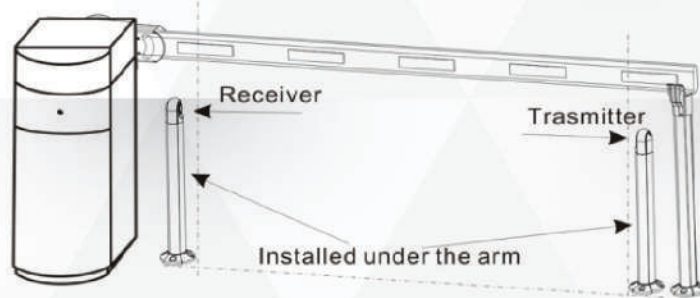

Electromechanical parking barriers also known as boom barriers, Which is operated by access controller using E-tags or via push button at visitors entry / exit points. Also used at toll plazas to stop the vehicles for toll collection. EVACS is effective to control access of vehicles in parking areas

Specifications:

- Net weight 55kg
- Rating voltage AC 220/110V \pm 10%
- Rating frequency 50/60Hz
- Rating Power 120W
- Opening/closing time 3s~6seconds
- Remote control distance (M) =30m
- Access controller (optional)
- Loop detector (optional)
- Signal light (optional)
- Ticket dispenser (optional)
- E-Tags (optional)
- Photocell sensor (optional)
- You can operate it with complete software as well.

DESIGN NO 2

Ideal For:

Shopping Malls, Commercial areas, **Airport premises**, Business centers, Industrial areas, **Hotels**, **Financial institutes**, Educational institutes, **Spa & Fitness centers**, **Government Sectors**

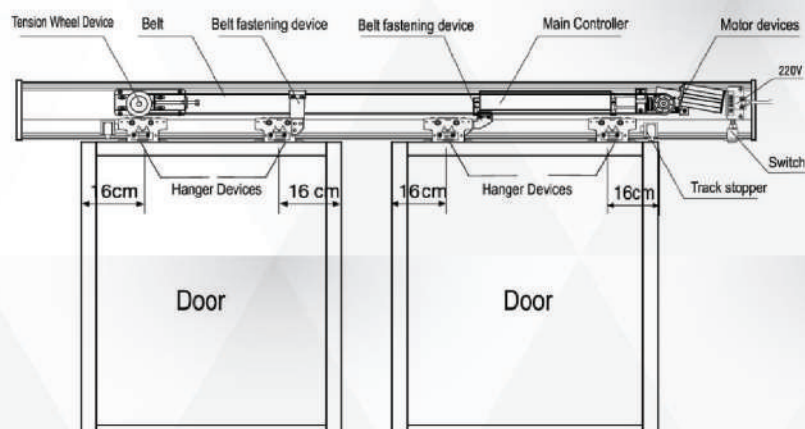

AUTOMATIC GLASS DOORS

Sliding door system gives an aesthetically pleasing, yet highly functional entrance. Sliding door system comes complete with door leaf, safety devices, access control options and where required, side screens and overlights. Safe and easy to use, they are suitable for any entrance, from simple opening and closing

Specifications:

- Net weight 125kg
- Aluminium case 2.1 - 6.4m
- Opening speed 40-50s (Adjustable)
- Closing speed 20-30s (Adjustable)
- 8 bit micro computer
- Motor DC 12v
- Power voltage Ac 110v / 220v 50 - 60 HZ
- Power consumption 45w
- Detection angle 360 degree
- Push button (optional)
- Access control (optional)

Trolley's

Push Button

Door Track

Ideal For:

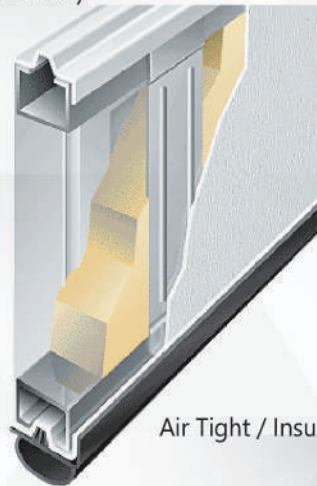

Government insitutions, **Commercial areas**, Airport premises, **Business centers**, **Industrial areas**, **Hotels**, Financial institutes, **Housing Societies**, **Sports complex**, **Parkings**

Hospitals, clinics, care and nursing homes are all places built to look after people's health and well being and are used by people with reduced mobility, such as orthopedic and geriatric wards, or by people who may need to be moved around on wheel chairs or stretchers, Hospital doors used by the health industry is not an option, but it's essential requirement

Specifications:

- 16/18 SWG MS/SS Plain Sheet
- MS/SS U Section
- Diamond Jumbolon
- Polyutherene
- Foam Filling
- See Through Tempered/ Non Tempered Glass Window
- Panel Thickness 1.5 Inch / 2 Inch (Optional)
- Powder Coating For MS Material.
- Aluminium Track
- Rubber Belt
- Tafflon Wheels & Trolleys
- Belt Catchers
- End Gear
- Controller
- DC Motor
- Hand Sensor
- Foot Sensor
- Safety Sensors (optional)

Air Tight / Insulated Door Panel

Door Track

Ideal For:

Hospitals, Commercial areas, Airport premises, Industrial areas, **Clinics**, **Pharmaceutical sectors**, **Food Industries**, Government Sectors

FIRE RATED DOORS

A fire door is a door with a fire-resistance rating (sometimes referred to as a fire protection rating for closures) used as part of a passive fire protection system to reduce the spread of fire and smoke between separate compartments. All fire doors must be installed with the appropriate fire resistant fittings, such as the frame and door hardware, for it to fully comply with any fire regulations

Specifications:

- Doors can be used in drywall
- Door Leaf Thickness: 42mm
- Material Thickness: 1mm–1.9mm
- Finish: Enamel Paint or Powder Coat finish
- Structure: High aesthetics and robust
- High quality standards
- Core type Rockwool
- Door type single / double leaf

Double Leaf Door

Single Leaf Door

Single Leaf Door Designs

Ideal For:

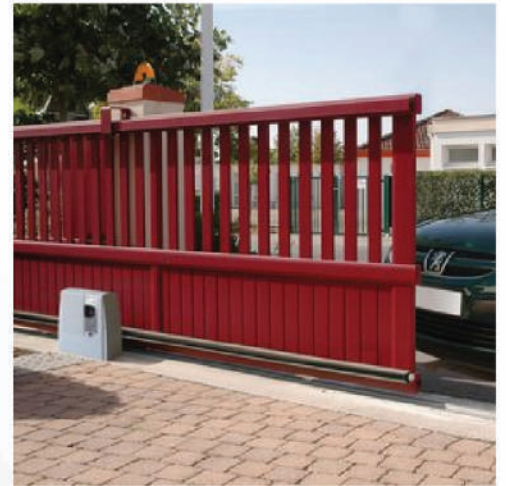

Government insitutions, Commercial areas, Airport premises, Business centers, Industrial areas, Hotels, Financial institutes, Housing Societies, Sports complex, Parkings

Our vast range of automatic gate products are from NICE. Who are the leading suppliers of home automation products across the world. Automatic sliding / swing gate makes your life comfortable, easy and beautiful. Forget the inconvenience of having to open and close your gate manually. Make a style choice, for you and your property.

Specifications:

- Increased Comfort & Security level
- Control with Smart remote
- Easy to open big and heavy gates
- Open while sitting in your car
- Safety sensor (optional)
- Elegant look
- Push button (optional)

Automatic sliding gate

Automatic swing gate

Ideal For:

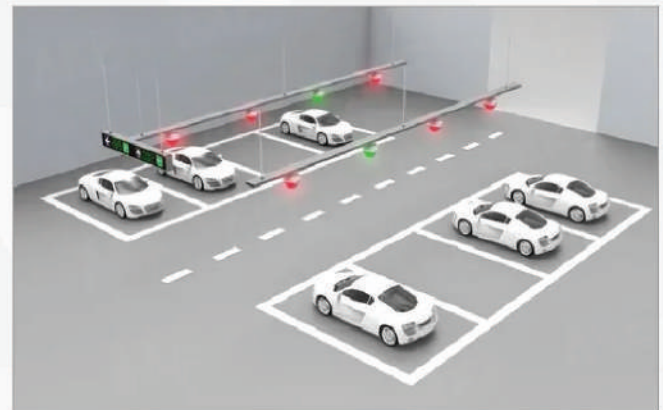

Hospitals, **Commercial areas**, Airport premises, **Industrial areas**, **Residential areas**, Educational institutes, Sports complex, Business centers

Find Your Parking Space On Entrance With our Unique Digital System. Access To your Parking Slot with Led Lights is Now to Easy with Geartech Latest System. Sensors will not detect anything except Cars.

Specifications:

- Find your space before entrance in parking area through led digital display board
- The numerical number size on led digital light will be 8 inch, easily visible for anyone on distance
- The sensors installed on parking slots only sense the cars, It will not sense any other motions
- On empty slot the parking light turns into green
- On filled parking slot parking light turns into red
- It will reduce stress with easy guidance.
- It's environmet friendly , Easy to understand and succesfull experienced system.

Ideal For:

Government insitutions, Commercial areas, Airport premises, Business centers, Industrial areas, Hotels, Financial institutes, Parking areas, Sports complex

Manufacturing according to your specific requirements, each of our Automatic Roller Shutter, Automatic Pvc high speed shutter, Polycarbonated shutter provides reliable service. Our highly flexible solutions also help improve safety and convenience. They can be customised to match your building with a wide range of colors and materials, then complemented with your choice of optional features and accessories.

Specifications:

- Automatic Rolling Shutters
- Automatic PVC high speed shutters
- Automatic Polycarbonated shutters
- Industrial sectional doors
- Push button (optional)
- Hand sensor (optional)
- Foot sensor (optional)
- Access control (optional)
- Signal light (optional)

Automatic high speed pvc shutters

Automatic rolling shutters

Automatic industrial sectional shutter

Automatic polycarbonated shutters

Ideal For:

Industrial sectors, Small industries, Food industries, Godowns, Warehouse, Shopping Malls, Commercial sectors

STEEL FABRICATION

The fabrication directly involve perfect design of item, calculate of all procedure to use for product, select correct material as per specification for item to work perfect and efficient and every step perfectly calibrate at the base of specific method of engineering.

Specifications:

- We provide complete heavy and light fabrications for your industries
- We provide complete fabrication of parking sheds with unique & modern designs.
- We provide complete structures of industries, backlet stairs and all the steel fabrications with architectural designs & measurements.

Stairs Structure

Ideal For:

Industrial Structures

Parking Sheds

Government insitutions, Commercial areas, Airport premises, Business centers, Industrial areas, Hotels, Financial institutes, Parking areas, Sports complex

Automatic tripod turnstile barriers, flap barriers and full height pedestrian barriers enhance the looks and entries of offices. It also provides security with the blockage of one side operation. RFID cards is essential to operate these barriers.

Specifications:

- Unlimited no of cycles
- Green and red light for indication
- RFID cards
- Built in access control
- Sleek and smart machines
- 1 year free maintenance
- Push button (optional)

Automatic flap barriers

Automatic tripod turnstile barriers

Ideal For:

Industrial sectors, Small industries, Food industries, Godowns, Warehouse, Shopping Malls, Commercial sectors, Educational institutes, Grocery stores, Shopping malls

PARKING ACCESSORIES

Geartech have a wide range of parking accessories, which includes different products. We're providing complete installation services to enhance the looks and security of your parking areas.

Products:

- Traffic cones in different sizes
- Delinators (Traffic bollards) in different sizes
- Cateyes (Plastic, Aluminium, Solar)

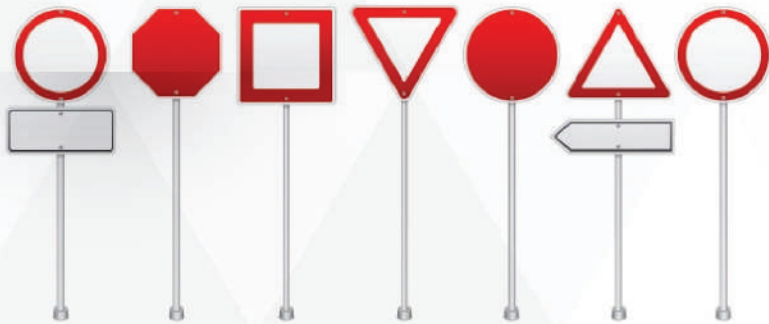

- Road marking CR & TP / Curve stone paint

Ideal For:
Parking areas, Highways, Industries, Commercial sectors

- Road signange with wide range of designs and layouts in different materials
- Reflectors 3M original HIV & Diamond grade

Pole Installations

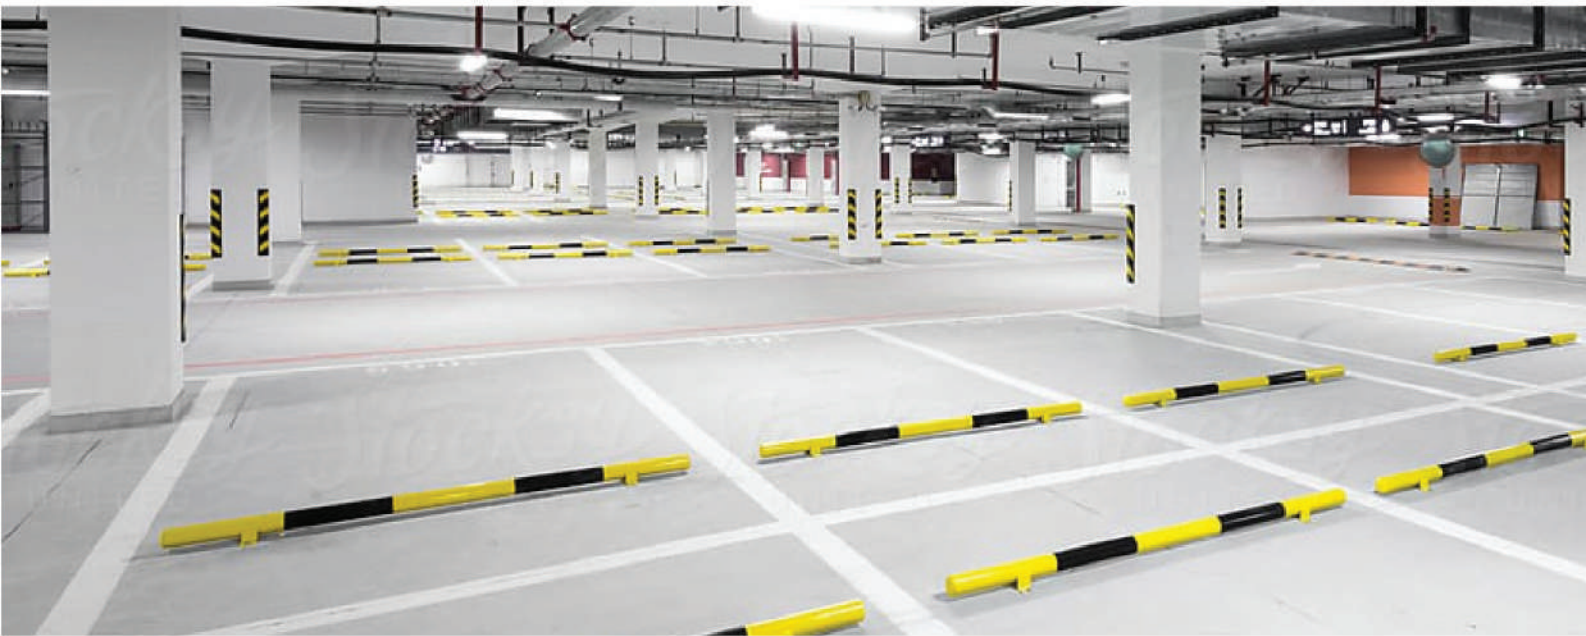

Different Designs

PVC Indoor Signs

Ideal For:
 Parking Areas, Highways, Commercial sectors, Industrial plants

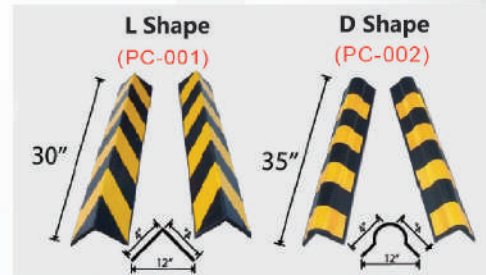

PARKING ACCESSORIES

- Rubber corner pillars guard

FEATURES

- Prevent damage to both vehicles and buildings.
- Protect the edges of columns in structures
- Protect vehicles from common dents and scratches
- Relieves the tension of broken corners of pillars
- Physible for Shopping centres
- Suitable for Industrial parkings
- Suitable for hospital parkings

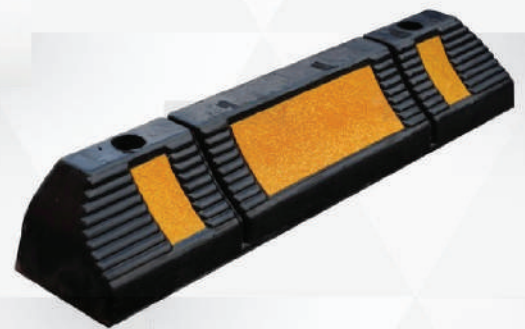

Model	Length	Width	Weight	Colour
GT-05-06	30''to35''	4''x4''	2.6-2.8Kg	Black&Yellow

- Rubber wheel stoppers

FEATURES

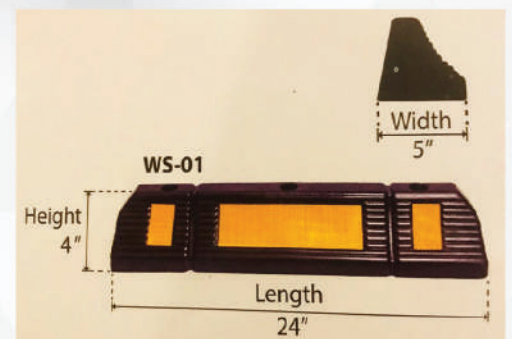

- Suitable for all parking areas specially designed for all light and heavy weight vehicles, Prevent from any accidents while parking car.

Model	Length	Width	Height	Weight
GT-01	24''	5''	4''	7 Kg

Ideal For:

Parking areas, Highways, Commercial sectors

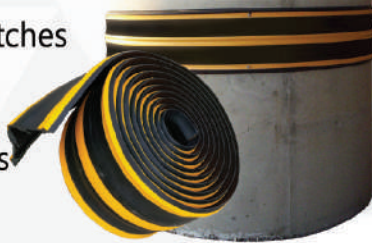

- Coloumn guards (Round)

FEATURES

- Prevent Damage
- Protect vehicles from scratches
- Flexible strip
- High grade reflector
- Best for edges, sharp turns
- High quality product

- Speed humps Rubber + Aluminium

FEATURES

- On roads where the speed limit is not obeyed
- Hazardous intersections
 - Dangerous curves or bends
 - Residential areas, including complexes and estates

Ideal For:

Parking areas, Highways, Commercial sectors

- Dock fenders

FEATURES

- Prevent damage to both vehicles and buildings.
- Protect the dock gates
- Protect vehicles from common dents and scratches
- Extra thick rubber fenders

- Convex parking mirrors

FEATURES

- Outdoor & indoor convex mirrors
- Available with cap & without cap
- With wall brackets
- Fixing with stand (optional)
- High quality product

Ideal For:

Parking areas, Commercial buildings, Industries

- Fire safety systems

PORTABLE FIRE EXTINGUISHERS

- DCP
- CO2
- Foam
- Water
- Wet Chemical

FIRE ALARM SYSTEMS

- Intelligent Addressable Fire Detection and Alarm System
- Smoke & Heat Detection
- Very Early Warning Fire Detection Systems
- Flame & Gas Detection
- PAVA System

FIRE WATER BASE EXTINGUISHING SYSTEM

- Sprinkler System
- Deluge System
- Pre-action System
- Water Mist System (High & Low)
- Hydrant System
- Fire Pump System

FIRE SUPPRESSION SYSTEMS

- Low/Medium/High Foam Expansion System
- DIFFS • NOVEC 1230 System
- FM 200 System
- CO2 System (LP/HP)
- Inert Gas System
- Wet (Kitchen Hood) & Dry Chemical System
- Aerosol Fire Suppression System

SAFETY FOOTWEAR

ARTICLE: GT-DD/LCN

STANDARD: EH-S3

ANTI SLIP, TOE CAP, PUNCTURE RESISTANT SOLE, CLOSED HEEL AREA, FUEL RESISTANCE SOLE, ANTI-STATIC PROPERTIES, ENERGY ABSORPTION IN HEEL AREA, WATER RESISTANT, PROFILED SOLE.

We're manufacturer of safety shoes, having a wide range of articles according your floor requirements. Following the standards of **S1, S2, S3 - EN 20345**. We're providing the quality product to our clients. We've both low price range articles and high export quality products.

Specifications:

- Leather uppers
- PU sole, rubber sole, PVC sole, Dual density Sole PU + PU, DMS sole, IMS sole
- Steel toe 200J
- Mid sole plate (optional)
- Comfortable insocks
- Synthetic linings
- Hooks laceup, Eyelet laceup, buckle
- More then 100 articles
